

10th Anniversary of the Dresden OCL open source project

Written by Birgit Demuth
Thursday, 29 October 2009 15:00

On 15th Oct, we celebrated the 10th anniversary of the Dresden OCL open source project by a workshop:

[Dresden OCL - Quo Vadis?](#)

The program included talks and demos representing the state of the art of Dresden OCL as well as talks about research topics and future plans.

I would like to thank both all workshop speakers and developers who contributed to the Dresden OCL tools during the last ten years. I enjoyed the day very much and also thank for the kind feedback from

- our partners in [Innsbruck](#)
